Are you an African American or Black man between the ages of 40-59?
The Institute for Research on Men’s Health would like your perspective on factors that influence health and health behaviors. The goal of this project is to gain a better understanding of how gender influences the health of African American men living in Nashville, TN and surrounding areas.

Participation is voluntary and confidential. Participants will be asked to:

- Complete a survey that asks about their health
- Participate in a 2-hour focus group discussion

Participants will receive a meal and a $30 VISA gift card
