Cornelia Vanderbilt had a vision of a place that “would contribute to strengthening the ties that should exist between all sections of our common country” when he gave money to create a university in 1873. Today that vision has been realized in Vanderbilt, an internationally recognized research university with strong partnerships among its 10 schools, neighboring institutions and the community. Vanderbilt offers undergraduate programs in the liberal arts, sciences, nursing, engineering, music, education and human development, as well as a full range of graduate and professional programs. The meaning of cutting-edge research, liberal arts education, nationally recognized schools of business and medicine, and the spirit of invigorating atmosphere where students tailor their education to meet their goals and researchers collaborate to address the complex questions affecting our health, culture and society. Vanderbilt provides a gateway to greatness, drawing the brightest students from across the nation and around the world. Vanderbilt alumni can be found on the job boards, in the pulpit, leading corporations, conducting judicial bench, in the arts and the world stage, working as doctors, engineers, attorneys, scientists, leaders, actors, athletes, and more. All are Vanderbilt graduates. Vanderbilt provides a gateway to greatness, drawing the brightest students from across the nation and around the world.
