PPM & POET: Key Facts

Projects Portfolio Management (PPM): A subledger to track activities that span over multiple fiscal years. Each project is assigned a unique project number. A different string (POET) is used to charge expenses to a project.

POET Segments	P Project # Automatically assigned unique number to each project upon creation by the system
	O Organization Designated HCM Work Unit that ultimately maps to Financial Unit
	E Expenditure Type Identifies specific type of transaction; corresponds to Account segment in COA
	T Task Identifies project activity

Notes:

Program and Activity functionality is not available when entering POET during requisition or expense report creation. During project setup, the project type (below) and project number (above) are generated. Through this setup, COA details like Net Asset Class and Owning Organization (work unit, mapping to financial unit for accounting) are defined.

PPM SUBLEDGER USES (PROJECT TYPES)

GRANTS	CORES	FACULTY FUNDS	GIFTS & ENDOWMENTS	CAPITAL PROJECTS
Tasks: All Grants POET transactions will use Task 1	Tasks: Each core service line has a task. A cores project can have many tasks, varying from project to project. Examples: Task 1. Centrifuge	Tasks: Faculty Fund POET transactions will use Tasks 1-160 Examples: Start-up Retention	Tasks: All Gifts & Endowments POET transactions will use Tasks 1	Tasks: All Capital Project POET transactions will use either Task 1 or Task 2, denoting whether the expense is <ol style="list-style-type: none"> 1. Capitalizable 2. Non-Capitalizable
Owner: OCGA	Owner: OCGA	Owner: Provost Finance	Owner: DAR	Owner: Facilities
